

Andrano, 14<sup>th</sup> - 21<sup>st</sup> October 2014  
YOUTH EXCHANGE on  
**#EMPLOYMENT AND #CREATIVITY**

with the support of:

**INFOPACK OF THE PROJECT JOB ORIENTEERING,  
HOSTED BY THE ITALIAN NETWORK SEYF - SOUTH EU-  
ROPE YOUTH FORUM**

## THE PROJECT

The project **Job Orienteering** is going to take place in Andrano, city in the South of the Apulia Region on the Adriatic Sea. The activities are going to be implemented from **14 to 21 October 2014**.

The project will involve 40 young people, members of youth organization, from **Bulgaria, Greece, Italy, France, Romania, Spain, Malta and Poland**.

This project idea is developed for **combating youth unemployment and for supporting the inclusive growth**. The theme of the project is the presentation of opportunities that young people may find while they're building their career, helped by the opportunities offered by EU or their respective national governments, or thanks to the personal effort (education, preparation and ingenuity) and the experience developed with Volunteering.

The main objective is to increase the **awareness of young people to their personal life skills** and to give them tools and instruments to propose themselves in future occupational perspectives. The methodologies used for "JO!" meet the requirements of the non-formal learning: the young participants will know the local realities that deal with creative strategies for the development of new work opportunities for young people: they will be main actors in order to know, test and make aware interests and ideas about the employment.

**Workshops** and **visits** to local activities and organizations that developed new work ideas for young people, icebreaking, team building and problem solving activities with related de-briefing, daily evaluation moments will be the centre of the exchange that, finally, will result as a constructive know-how sharing.
